While linking the towns of East Brady, Kittanning and Ford City, the trail connects populated areas to the natural sights and sounds of the Allegheny River Valley. The trail is located along the eastern bank of the river. Currently 52 miles of relatively flat, compressed surface is ready to ride! The Armstrong Trail connects to the 51-mile Redbank Valley Trail just 5 miles from the trailhead in East Brady. The Armstrong Trail is critical link in the approximately 300 mile Erie to Pittsburgh Trail now under development.
